¹Due to COVID 19, many centers were closed and the number of completers who took the exams is extremely low. This data will continue to be reviewed pending pandemic effects on student testing.

²The number of program completers who took and 'passed', who took and 'failed', and 'did not take' the Content Praxis and/or the Praxis PLT are provided. Though a percentage is listed for completers who did not take either test, a percentage for teacher education completer pass rates has been provided with and without the '*Did Not Take*' student population.
