

**Bachelor of Science with a major in nursing:
Student Learning Outcomes Linked to PNSGs and KSBN Curriculum Requirements (expanded version)**

<p>Student Learning Outcomes By the end of the nursing program, students will be able to:</p>	<p>Linked to the following professional nursing standards and guidelines.</p>
<p>1. Integrate knowledge and theoretical concepts from liberal education into nursing practice decisions.</p>	<p>AACN BSN Essential #1 Liberal Education for Baccalaureate Generalist Nursing Practice #4 Information Management and Application of Patient Care Technology #9 Baccalaureate Generalist Nursing Practice</p> <hr/> <p>ANA Scope & Practice Standards 1. <u>Assessment</u>: The registered nurse collects comprehensive data pertinent to the healthcare consumer’s health and/or the situation. 16. <u>Environmental Health</u>: The registered nurse practices in an environmentally safe and healthy manner.</p> <hr/> <p>QSEN - N/A</p> <hr/> <p>KSBN’s Required Curriculum Content for Attaining Learning Outcomes #4 Physiological integrity, including basic care and comfort, pharmacology, parenteral therapies, reduction of risk potential, physiological adaptation.</p>
<p>2. Utilize the nursing process in the delivery of multicultural, client-centered care, providing therapeutic nursing interventions with individuals, families, and communities who live in a society of multicultural settings.</p>	<p>AACN BSN Essential #7 Clinical Prevention and Population Health #9 Baccalaureate Generalist Nursing Practice</p> <hr/> <p>ANA Scope & Practice Standards 1. <u>Assessment</u>: The registered nurse collects comprehensive data pertinent to the healthcare consumer’s health and/or the situation. 2. <u>Diagnosis</u>: The registered nurse analyzes the assessment data to determine the diagnoses or the issues. 3. <u>Outcomes Identification</u>: The registered nurse identifies expected outcomes for a plan individualized to the healthcare consumer or the situation. 4. <u>Planning</u>: The registered nurse develops a plan that prescribes strategies and alternatives to attain expected outcomes. 5. <u>Implementation</u>: The registered nurse implements the identified plan. 6. <u>Evaluation</u>: The registered nurse evaluates progress toward attainment of outcomes. 8. <u>Culturally Congruent Practice</u>: The registered nurse practices in a manner that is congruent with cultural diversity and inclusion principles.</p>

Student Learning Outcomes By the end of the nursing program, students will be able to:	Linked to the following professional nursing standards and guidelines.
(Continued) 2. Utilize the nursing process in the delivery of multicultural, client-centered care, providing therapeutic nursing interventions with individuals, families, and communities who live in a society of multicultural settings.	<p>QSEN <u>Patient-Centered Care</u>: Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient’s preferences, values and needs. <u>Evidence-Based Practice</u>: Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.</p> <p>KSBN’s Required Curriculum Content for Attaining Learning Outcomes #3 Psychosocial integrity, including coping, adaptation and psychosocial adaptation. #4 Physiological integrity, including basic care and comfort, pharmacology, parenteral therapies, reduction of risk potential, physiological adaptation.</p>
3. Practice nursing care using safety, ethical, legal, and professional nursing standards	<p>AACN BSN Essential #1 Liberal Education for Baccalaureate Generalist Nursing Practice #2 Basic Organizational and Systems Leadership for Quality Care and Patient Safety #3 Scholarship for Evidence-Based Practice #7 Clinical Prevention and Population Health #9 Baccalaureate Generalist Nursing Practice</p> <p>ANA Scope & Practice Standards 5B. <u>Health Teaching and Health Promotion</u>: The registered nurse employs strategies to promote health and a safe environment. 7. <u>Ethics</u>: The registered nurse practices ethically. 15. <u>Resource Utilization</u>: The registered nurse utilizes appropriate resources to plan and provide nursing services that are safe, effective, and financially responsible. 14. <u>Professional Practice Evaluation</u>: The registered nurse evaluates her or his own nursing practice in relation to professional practice standards and guidelines, relevant statutes, rules, and regulations.</p> <p>QSEN <u>Patient-Centered Care</u>: Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient’s preferences, values and needs. <u>Safety</u>: Minimizes risk of harm to patients and providers through both system effectiveness and individual performance.</p> <p>KSBN’s Required Curriculum Content for Attaining Learning Outcomes #1 Aspects of a safe, effective care environment, including management of care, safety, and infection control. #2 Health promotion and maintenance, including growth and development through the life span and prevention and early detection of disease. #4 Physiological integrity, including basic care and comfort, pharmacology, parenteral therapies, reduction of risk potential, physiological adaptation.</p>

Student Learning Outcomes By the end of the nursing program, students will be able to:	Linked to the following professional nursing standards and guidelines.
4. Communicate effectively with the interdisciplinary team through teamwork and collaboration in maintaining continuity of care.	<p>AACN BSN Essential #6 Interprofessional Communication and Collaboration for Improving Patient Health Outcomes #8 Professionalism and Professional Values #9 Baccalaureate Generalist Nursing Practice</p> <p>ANA Scope & Practice Standards 11. <u>Communication</u>: The registered nurse communicates effectively in a variety of formats in all areas of practice. 13. <u>Collaboration</u>: The registered nurse collaborates with the healthcare consumer, family, and others in the conduct of nursing practice.</p> <p>QSEN <u>Teamwork and Collaboration</u>: Function effectively within nursing and interprofessional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.</p> <p>KSBN's Required Curriculum Content for Attaining Learning Outcomes #1 Aspects of a safe, effective care environment, including management of care, safety, and infection control.</p>
5. Use information and technology to communicate, manage knowledge, mitigate errors, and support decision making information for quality improvement in the clinical setting.	<p>AACN BSN Essential #1 Liberal Education for Baccalaureate Generalist Nursing Practice #2 Basic Organizational and Systems Leadership for Quality Care and Patient Safety #4 Information Management and Application of Patient Care Technology #6 Interprofessional Communication and Collaboration for Improving Patient Health Outcomes</p> <p>ANA Scope & Practice Standards 9. <u>Evidence-Based Practice and Research</u>: The registered nurse integrates evidence and research findings into practice. 10. <u>Quality of Practice</u>: The registered nurse contributes to quality nursing practice.</p> <p>QSEN <u>Teamwork and Collaboration</u>: Function effectively within nursing and interprofessional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care. <u>Quality Improvement</u>: Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care system. <u>Safety</u>: Minimizes risk of harm to patients and providers through both system effectiveness and individual performance. <u>Informatics</u>: Use information and technology to communicate, manage knowledge, mitigate error, and support decision making.</p> <p>KSBN's Required Curriculum Content for Attaining Learning Outcomes #1 Aspects of a safe, effective care environment, including management of care, safety, and infection control.</p>

Student Learning Outcomes By the end of the nursing program, students will be able to:	Linked to the following professional nursing standards and guidelines.
6. Utilize research evidence as a basis for providing and making decisions about quality of care and nursing practice.	<p>AACN BSN Essential #1 Liberal Education for Baccalaureate Generalist Nursing Practice #2 Basic Organizational and Systems Leadership for Quality Care and Patient Safety #3 Scholarship for Evidence-Based Practice</p> <p>ANA Scope & Practice Standards 9. <u>Evidence-Based Practice and Research</u>: The registered nurse integrates evidence and research findings into practice. 10. <u>Quality of Practice</u>: The registered nurse contributes to quality nursing practice.</p> <p>QSEN <u>Evidence-Based Practice</u>: Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care. <u>Quality Improvement</u>: Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care system.</p> <p>KSBN's Required Curriculum Content for Attaining Learning Outcomes #1 Aspects of a safe, effective care environment, including management of care, safety, and infection control. #2 Health promotion and maintenance, including growth and development through the life span and prevention and early detection of disease.</p>
7. Exhibit leadership and management principles in assessing, planning, providing, directing, controlling, and evaluating health care.	<p>AACN BSN Essential #2 Basic Organizational and Systems Leadership for Quality Care and Patient Safety #5 Healthcare Policy, Finance, and Regulatory Environments</p> <p>ANA Scope & Practice Standards 1. <u>Assessment</u>: The registered nurse collects comprehensive data pertinent to the healthcare consumer's health and/or the situation. 4. <u>Planning</u>: The registered nurse develops a plan that prescribes strategies and alternatives to attain expected outcomes. 5A. <u>Coordination of Care</u>: The registered nurse coordinates care delivery. 6. <u>Evaluation</u>: The registered nurse evaluates progress toward attainment of outcomes. 12. <u>Leadership</u>: The registered nurse demonstrates leadership in the professional practice setting and the profession. 15. <u>Resource Utilization</u>: The registered nurse utilizes appropriate resources to plan and provide nursing services that are safe, effective, and financially responsible.</p> <p>QSEN - N/A</p> <p>KSBN's Required Curriculum Content for Attaining Learning Outcomes #1 Aspects of a safe, effective care environment, including management of care, safety, and infection control.</p>

Student Learning Outcomes By the end of the nursing program, students will be able to:	Linked to the following professional nursing standards and guidelines.
8. Function as a professional nurse through self-evaluation as life-long learners who reflect critical thinking skills in nursing practice.	<p>AACN BSN Essential #1 Liberal Education for Baccalaureate Generalist Nursing Practice #8 Professionalism and Professional Values #9 Baccalaureate Generalist Nursing Practice</p> <p>ANA Scope & Practice Standards 8. <u>Education</u>: The registered nurse attains knowledge and competence that reflects current nursing practice. 14. <u>Professional Practice Evaluation</u>: The registered nurse evaluates her or his own nursing practice in relation to professional practice standards and guidelines, relevant statutes, rules, and regulations.</p> <p>QSEN - N/A</p> <p>KSBN's Required Curriculum Content for Attaining Learning Outcomes #1 Aspects of a safe, effective care environment, including management of care, safety, and infection control.</p>
9. Promote and support optimal biopsychosocial spiritual health of individuals, families, and communities in society.	<p>AACN BSN Essential #9 Baccalaureate Generalist Nursing Practice #7 Clinical Prevention and Population Health</p> <p>ANA Scope & Practice Standards 5B. <u>Health Teaching and Health Promotion</u>: The registered nurse employs strategies to promote health and a safe environment. 8. <u>Culturally Congruent Practice</u>: The registered nurse practices in a manner that is congruent with cultural diversity and inclusion principles. 16. <u>Environmental Health</u>: The registered nurse practices in an environmentally safe and healthy manner.</p> <p>QSEN - N/A</p> <p>KSBN's Required Curriculum Content for Attaining Learning Outcomes #2 Health promotion and maintenance, including growth and development through the life span and prevention and early detection of disease. #3 Psychosocial integrity, including coping, adaptation and psychosocial adaptation.</p>

Student Learning Outcomes By the end of the nursing program, students will be able to:	Linked to the following professional nursing standards and guidelines.
10. Analyze the role of the professional nurse in relation to trends in health care and consumer demands.	AACN BSN Essential #5 Healthcare Policy, Finance, and Regulatory Environments #8 Professionalism and Professional Values
	ANA Scope & Practice Standards 14. <u>Professional Practice Evaluation</u> : The registered nurse evaluates her or his own nursing practice in relation to professional practice standards and guidelines, relevant statutes, rules, and regulations.
	QSEN Teamwork and Collaboration: Function effectively within nursing and interprofessional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care. Quality Improvement: Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care system.
