

KWU MBA

Finish in as little as one year for under \$15,000

“The online classes at KWU were both educational and convenient for me to manage work, family and fun while attending classes. Flexible schedules and a wide variety of courses allowed me to accomplish my master’s degree in 18 months, while continuing my military career.” Merlin Hollis ’17, United States Army

FLEXIBLE

Start during any eight-week session

ACCREDITED

by the Higher Learning Commission

The MBA at Kansas Wesleyan University is ideal for professionals looking for **a flexible, affordable program**. Our program allows working professionals the opportunity to pursue an advanced degree in as little as a full calendar year.*

We have a fully online program, or our hybrid option allows students to take courses **online** and to participate in on-campus courses offered during evening hours. Courses give students the chance to network with executives from the region’s top businesses.

Students are billed per course, so if life throws a curve ball, students aren’t stuck with a bill for remaining courses. **No GMAT is required** for acceptance to the 30-hour program. The total cost is **under \$15,000, and your last class is free!**

*Students have up to six years to complete their degree.
