

# The POWER of Kansas Wesleyan

## **Mission**

The mission of Kansas Wesleyan University is to promote and integrate academic excellence, spiritual development, personal well-being, and social responsibility.

## **University Motto**

Palma non sine pulvere - Victory, not without toil.

#### Dear Friends,

Since its earliest days, Kansas Wesleyan has valued the importance of integrating its formal curriculum with extracurricular and co-curricular offerings. We were among the first in the nation to embrace intercollegiate athletics and, by the late 1800s, debate, music, and theatre had all become integral to the KWU experience.

In this strategic plan, we are profoundly committed to leveraging the power of what Kansas Wesleyan has always been and to actualize it more fully in a world that requires vision and creativity. The strategic plan for 2018-2021 is focused on a singular theme that underlies our mission and emboldens us to be the institution to which we have been called: The Power of And.

#### The Power of And

We know that the integration of studies and activity participation produces exceptional graduates. Our liberal arts core enhances student success. This is affirmed by national surveys; employers want to hire former student leaders because of their ability to work collaboratively, balance multiple priorities, communicate effectively, and exhibit goal orientation. Our own six-month-graduation surveys indicate that our newest alumni are becoming employed or entering graduate school at higher-than-national levels. While The Power of And has been at the heart of our students' experience, we must help them more clearly understand the lessons they are learning and how to translate those experiences into post-collegiate-life terms and applications, both personally and professionally.

There are few fields in which our alumni have not played pivotal roles in establishing and broadening the boundaries of thought, such as aeronautics, agriculture, business, education, law, medicine, religion, science, and technology. This is true, not only because we encourage the development of creative thinking and acumen, but because of the learned traits of resilience, determination, grit, and vision, which are a result of The Power of And.

This strategic focus is supported by the tenets of our campus community and undergirded by our United Methodist roots. Many years ago, Kansas Wesleyan students selected the versatile and adaptable coyote as the school's mascot. While Coyotes are strong individually, they thrive in packs, using the group for both support and encouragement. The deep care evidenced among our faculty, staff, and students unites our pack. It is the strength, safety, and communal bond of the pack that will support and enhance The Power of And.

#### **Moving Toward 2021**

We have successfully used the last few years to deepen our understanding of who we are, whom we serve, and how we create productive graduates. This strategic plan is focused on amplifying these attributes to make sure they are experienced by every student in meaningful ways.

The responsibility to shape the lives of our students is a serious one. Our students, their families, and, in some cases, their employers are investing significantly in Kansas Wesleyan. They deserve a phenomenal experience that leads them to the outcomes they desire and the ones that we all need.

I proudly present the cumulative work of many individuals from all constituencies that have shaped this direction. I look forward to the road ahead and traveling it with you.

Sincerely,

Matt Thompson, Ph.D. President and CEO

The KWU 2018–21 Strategic Plan was approved by the Board of Trustees on June 16, 2018.

# The Strategic Plan
