Professional Licensure and  
Disclosure Policy/Process**

**SYNOPSIS**

The following contains information related to a Kansas Wesleyan University academic program that is either:

1) designated to prepare students for professional license or certification attainment coupled with KWU’s determination whether the program meets U.S. State, Territory, or District curriculum requirements

OR

2) designated as a pre-licensure program that provides initial academic study, but is not intended to directly lead to professional license or certification since post-baccalaureate education and/or additional post-baccalaureate work experience would be required.

.....  
Professional Licensure & Disclosure Policy (which contains Student Location Policy and Process) is included.

## Professional Licensure and Certification Disclosure Processes

This document contains information related to Kansas Wesleyan University's programs that are designed to prepare students for the attainment of a professional license or certification and its determination as whether those programs meet the educational prerequisites for professional licensure or certification. Academic programs omitted from this list are not intended to lead to a professional licensure or certification.

**Additional Licensure Requirements:** Requirements for licensure or certification in addition to educational prerequisites may include professional examinations, background checks, years or work experience, fingerprinting requirements, etc.

**Potential Changes in Requirements:** Students who plan to pursue licensure should be aware that requirements for professional licensure can vary drastically by state, and these requirements are subject to change at any time. While an academic program may originally meet the educational requirements for licensure, changes in U.S. State/U.S. Territory requirements or laws could impact the program's ability to meet new educational requirements. Students should always check with their state licensure board to confirm licensure requirements.

**Important Note for Relocating During the Course of a Program of Study:** Prospective and current students should keep in mind that relocating to another state during the course of a program of study could impact their ability to meet the licensure or certification requirements of the relocating state.

## PROFESSIONAL LICENSURE AND DISCLOSURE POLICY

<b>Administrative Division</b>	<b>Provost</b>
<b>Policy Title</b>	<b>Professional Licensure and Disclosure Policy</b>
<b>Administrative Office</b>	<b>Director of Assessment &amp; Institutional Compliance</b>
<b>Effective Date of Policy</b>	<b>July 1, 2024</b> <b>Revision: March 31, 2025</b>

### Purpose

The U.S. Code of Federal Regulations, specifically 34 CFR 668.43(a)(5)(v) and 34 CFR 668.43(c) require disclosures by institutions regarding educational requirement for programs leading to professional licensure or certification regardless of instructional modality. 34 CFR 668.43(a)(5)(v) requires an institution to provide information to enrolled and prospective students whether programs leading to professional licensure or certification meet educational requirements throughout all U.S. states, districts, and territories. This applies directly to the state, district, or territory in which the enrolled and prospective students are located.

### Implementation

This policy is effective July 1, 2024.

### Definitions

*Attestation:* A voluntary process in which a student from a state, district, or territory where a program does not meet licensure requirements attests that they will seek employment in a state, district, or territory where the program’s curriculum meets the necessary state requirements. This process ensures that students are aware of and comply with the educational prerequisites for professional licensure in their intended employment location. The attestation involves the student:

- Declaring voluntarily their intention to seek licensure and employment in a specific state, district, or territory where the program meets licensing requirements.
- Acknowledging that the program does not meet the educational requirements for licensure in their current state, district, or territory.
- Confirming receipt of advising and information about alternative options and resources for their pursuit of professional licensure.

This process is crucial for maintaining compliance with federal regulations and ensuring that students make informed decisions about their education and future career paths.

*Compact or Reciprocity Agreement:* A formal, voluntary agreement among member states, districts, and territories that establishes comparable national standards for the interstate offerings of postsecondary courses and programs. While a state, district, or territory ultimately retains authority to establish their own licensure criteria, each member state, district, or territory adopts similar legislation to facilitate the process. This agreement allows a licensed professional who has completed an approved program and obtained a

certificate or license in one state, district, or territory to earn a certificate or license in another state, district, or territory.

*Current Students:* Individuals who have signed an enrollment agreement, made a financial commitment to the institution, and/or are currently enrolled in an academic program at Kansas Wesleyan University (KWU).

*Distance education:* Defined by the United States Department of Education (USDE) as taking one or more courses through distance education (online or otherwise) during the first term of enrollment in a licensure program. KWU further defines distance education as when a student enrolls in at least one course offered through distance education during their first term of enrollment, classifying them as a distance education student.

Distance education involves:

- The remote delivery (> 50 percent) of academic courses that are part of or independent of academic programs.
- These courses employ one or more types of technology (internet, satellite, wireless communication, or audio/video conferencing) to students who are separated from the instructor. This supports regular and substantive synchronous or asynchronous interaction between students and the instructor.

For purposes of determining student location in distance education situations:

- During their first term of enrollment, any student residing in Kansas, relocating to Kansas, or in the process of relocating to Kansas, will be considered to be the State of Kansas when they are enrolled in, enrolling in, or planning to enroll in any distance academic course(s) or academic program, regardless of whether it is part of KWU's *Professional Licensure and Disclosure* policy processes and procedures. This exception does not apply to commuter students outside of Kansas.
- Location designations shall remain in effect until a student notifies the institution in writing of a change of state, district, or territory location. Once the student has notified the institution of their location change and the institution has noted the change in Jenzabar, the date of entry of the new student location in Jenzabar will serve as the effective date of the student's revised location for the purposes of this policy.
- For students whose permanent address does not include a U.S. state, district, or territory (e.g., students living outside the United States), their location will be considered the state of Kansas.

*Initial Enrollment:* For purposes of this policy, initial enrollment is defined as a prospective student who is either at the "inquiry" or "applied" status and prior to a student's signed enrollment agreement OR financial commitment. This is supported by Title IV regulations (34 CFR § 668.2) that define "enrolled" as: The status of a student who—(1) Has completed the registration requirements (except for the payment of tuition and fees) at the institution that they are attending. As a result, direct disclosures are to be provided prior to a signed enrollment agreement or financial commitment.

*Licensure:* This refers to any license, certification, certificate, endorsement, authorization, registration, or credential by any other title that is issued to an individual by a state or territory government and required for an individual to practice in a profession or work in an occupation in that state, district, or territory. Terminology for required credentials varies considerably across states/territories as well as professions/occupations.

*Non-Licensure Program:* This type of program does not lead to licensure or certification upon completion. While it may include concentrations, emphases, or tracks that prepare students for future enrollment in licensure or pre-licensure degree programs, the primary focus remains on the main degree. For example, a Health Science degree with a track in pre-athletic training indicates that the primary focus is health science, not with the intent of seeking licensure or certification in athletic training.

*Pre-Licensure Program:* Academic programs that provide initial academic study, but is not intended to directly lead to professional license or certification since additional post-baccalaureate education and/or additional post-baccalaureate professional work experience may be required prior to license attainment (e.g., Accounting regarding CPA licensure).

*Professional Licensure Program:* A degree program designed to lead to a professional licensure or certification. This ensures that a professional meets specific industry and/or occupational standards in terms of knowledge, experience, and current practices. These programs typically include coursework, practical experience, and/or examinations required to obtain licensure or certification in a particular field (e.g., Nursing, Social Work, or Teacher Education).

*Prospective Students:* Individuals who have applied for admission to KWU but have not yet signed an enrollment agreement, made a financial commitment to the institution, or enrolled in any KWU courses.

*Reciprocity Agreement or Compact:* A formal, voluntary agreement among member states, districts, and territories that establishes comparable national standards for the interstate offerings of postsecondary courses and programs. While a state, district, or territory ultimately retain authority to establish their own licensure criteria, each member state, district, or territory adopts similar legislation to facilitate the process. This agreement allows a licensed professional who has completed an approved program and obtained a certificate or license in one state, district, or territory to earn a certificate or license in another state/territory.

*State, District, or Territory:*

State: A State of the Union

District: District of Columbia

Territory: American Samoa, Puerto Rico, the District of Columbia, Federated States of Micronesia, Guam, Northern Mariana Islands, Republic of Palau, Republic of Marshall Islands, and the U.S. Virgin Islands.

*Student Location:* This is defined as the state, district, or territory where the enrolled student resides, based on the permanent home address in Jenzabar, the KWU student information system. For prospective students, it refers to the state, district, or territory of residency at the time of application for admission, intended enrollment, and entry into Jenzabar. If a student's permanent address is outside the U.S. or its territories, their location will be considered to be Kansas. Location designations shall remain in effect until a student notifies the institution in writing of a change of state, district, or territory. For purposes of this policy, the effective date of the new location is the date that is entered into Jenzabar. An exception to the student location definition includes distance education (see "*Distance Education*" for more information).

*Students:* This term encompasses both current and prospective students.

## **Policy and Procedure**

If an academic program offered by Kansas Wesleyan University (KWU) is designed to meet educational requirements for a specific professional license or certification required for employment, or is advertised as meeting such requirements, the following information is required:

- A. A list of all states, districts, or territories where the institution has determined that its program curriculum meets the state, district, or territory educational requirements for licensure or certification.
- B. A list of all states, districts, or territories where the institution has determined that its program curriculum does not meet the state, district, or territory educational requirements for licensure or certification.

According to 34 CFR 668.43(c), a direct disclosure is required by the institution to the student in writing if the program leading to professional licensure or certification does not meet the educational requirements for the state, district, or territory in which the student is located. This direct notification (typically via email, letter, or other electronic form of communication) must occur before the student's enrollment in the program, and prior to the student signing an enrollment agreement or making a financial commitment to the institution.

For students already enrolled in the program, if the institution later determines that the program does not meet the educational requirements for licensure or certification in the state, district, or territory where the student is located, the institution must notify the student within 14 calendar days of making that determination. The direct disclosures must be in writing (typically via email, letter, or other electronic form of communication). This provision is most likely to occur when a program loses its approval in a state, district, or territory where the student is located.

If it is disclosed to the student that the program curriculum does not meet state requirements for the state in which the student is located, the student may still enroll if they are provided with information about their state, district, or territory location designation licensure status and voluntarily attest that they will seek employment in a location where the program's curriculum 'meets' state requirements, other than the student's state location designation. In such cases, individual direct disclosures will be provided. Program participation agreement regulations require that students from states, districts, or territories where the program does not meet requirements, and who do not voluntarily complete the attestation process, cannot be enrolled in the program. Only prospective and current students who voluntarily utilize the attestation process/exception will be allowed to enroll in the program.

When a KWU academic program participates in a compact or reciprocity agreement, the program will determine whether the participating state, district, or territory requires a curriculum comparison. For states, districts, or territories where a curriculum comparison is not required, no comparison will be made, but it will be noted that the program meets educational requirements due to the compact/reciprocity agreement. For states, districts, or territories where a curriculum comparison is required, or if the state, district, or territory is not part of a compact or reciprocity agreement, the program will conduct a curriculum comparison. Findings of the curriculum comparison will be disclosed to individual students based on the student's state, district, or territory location designation as 'meeting' or 'not meeting' state, district, or territory requirements. In either scenario, any other additional state, district, or territory requirements will be noted and disclosed (as an addendum to the program's direct disclosure) to each individual student.

*Student Location:* This is defined as:

- The state, district, or territory where the **enrolled student** resides, based on the permanent home address entered into Jenzabar, the KWU student information system (unless exceptions are noted; see '*Distant Education*').
- For **prospective students**, it refers to the state, district, or territory of residency at the time of application for admission, intended enrollment, and entry into Jenzabar (unless additional exceptions are noted; see '*Distant Education*').

- If a student’s permanent address is outside the U.S. or its territories, their location will be considered to be Kansas (unless additional exceptions are noted; see *‘Distant Education’*).
- All other university policies that determine Kansas residency for tuition assessment purposes will not be superseded by this policy.
- Location designations will remain in effect until the student notifies the institution in writing of a change of U.S. state, district, or territory location.
- Once the student has notified the institution of their location change and the institution has noted the change in Jenzabar, the date of entry of the new student location in Jenzabar will serve as the effective date of the student’s revised location for the purposes of this policy.
- The institution will then have 14 calendar days to provide a direct disclosure to the student once it has been determined whether the program’s curriculum does or does not meet the student’s revised location’s educational requirements for licensure or certification.

### **Academic Programs**

Academic programs where additional credit hours or work experience beyond the bachelor’s degree are required for licensure or certification, said programs will state that the program is a ‘prelicensure program’ and is not designed as a program leading to licensure (e.g., Accounting [regarding C.P.A. and C.P.M. licensure]).

KWU academic programs, in collaboration with the Director of Assessment & Institutional Compliance, must conduct an annual review and update of state, district, or territory findings to ensure the program curriculum meets the necessary requirements. The full schedule can be found in the academic program’s Professional Licensure Manual.

### **Veterans Affairs**

Since February 17, 2023, the Department of Veterans Affairs (VA) has required institutions to publicly disclose any conditions or additional requirements, including training, experience, or examinations needed to obtain the license, certification, or approval for which the program is designed to prepare students. This applies to institutions participating in the GI Bill or other VA education benefits programs (38 CFR § 21.4259(e)). Additional requirements are noted in the program’s Professional Licensure Manual, and students seeking to participate in GI Bill or other VA education benefits programs will be notified of these requirements as an addendum to the program’s direct disclosure. Additionally, 38 CFR § 21.4253(9)(i) requires that the program meets all instructional curriculum licensure or certification requirements of the state, district, or territory.

### **Disclaimer**

Kansas Wesleyan University does not grant licensure. Each state’s, district’s, or territory’s licensure board or agency provides licensure once a KWU student graduates and applies for that state’s, district’s, or territory’s license. While we cannot guarantee that any KWU graduated student will be able to obtain the license, we have made a good faith effort to determine each state’s, district’s, or territory’s licensure requirements. Therefore, our determinations are not final and should not be relied upon.

### **Compliance**

Compliance with the university’s Professional Licensure and Disclosure Policy is mandatory for all faculty, staff, and students. Failure to follow the policy will be addressed through standard disciplinary procedures in accordance with university guidelines.

## KWU Accounting (Pre-Licensure) Program

The Accounting (Pre-Licensure) Program at Kansas Wesleyan University (KWU) is part of the Kansas Wesleyan University's Business Department that is currently seeking accreditation with the Accreditation Council for Business Schools and Programs (ACBSP). The baccalaureate degree in Accounting (120 credit hours) is a prelicensure program and is not designated as a program leading to licensure.

The Certified Public Accountant (CPA) licensure requires 150 total credit hours of coursework, which means that approximately 30 additional credit hours beyond the baccalaureate degree would be required prior to taking the CPA exam. KWU's Accounting pre-licensure program will not meet any U.S. State's, District's, or Territory's curriculum requirements.

## Consulting Firm: *The Bookmark*

KWU has partnered with consulting firm, *The Bookmark*, to assist with making determinations regarding curriculum requirements. *The Bookmark* representatives have provided KWU guidance as to whether or not each state/territory/district requires a curriculum comparison. If curriculum comparisons are warranted, *The Bookmark* personnel provided additional state/territory/district legislative language. *The Bookmark* documentation may be found in APPENDIX A.

## How Determinations Are Made

Determinations regarding KWU's Accounting curriculum meeting or not meeting curriculum requirements are easily determined. Our baccalaureate degree in Accounting will not meet U.S. State's, District's, or Territory's curriculum requirements based on the information provided in the "KWU Accounting Program" section at the top of this page.

- Determination processes are based solely on prospective and currently enrolled students in KWU's Accounting Program.
- KWU's Business Department Chair or department designee, in consultation with appropriate KWU personnel, will chart and record all prospective and currently enrolled students in the Accounting Program.
- KWU will be responsible for maintaining and updating its website with 'Public' disclosure information as it becomes available.
- KWU will be responsible for sending the appropriate 'Direct Disclosures.'
- If a prospective or currently enrolled student has notified the institution of a home/residence change and the institution has noted the change in Jenzabar, the date of entry in Jenzabar will serve as the effective date of a student's revised location for the purposes of this policy. The institution will then have 14 calendar days to provide a direct disclosure to the student if it has been determined that the program's curriculum does not meet the state's (student's revised location) educational requirements for licensure or certification.

## Sample 'Direct Disclosure' Communication to Prospective & Current Students

### 'Direct Disclosure' – Positive Determination Draft Message

*Due to KWU's Accounting program being a pre-licensure program, a direct disclosure with a positive determination will not be sent to any prospective or current student.*

### 'Direct Disclosure' – Negative Determination Draft Message

Due to recent changes in Federal Legislation, we are now required to contact you regarding your program of study in Accounting, and whether KWU's program curriculum would be approved by your home state (state). At this time, we have determined that KWU's Accounting pre-licensure program curriculum does not meet state licensure requirements in your home state. Further documentation and information may be found on the KWU website at: <https://www.kwu.edu/about/consumer-information/> at the "Accounting Professional Licensure Manual & Evidence" link.

### 'Direct Disclosure' - Veteran Affairs Addendum

KWU is an institution that participates in the GI Bill or other Veteran Affairs (VA) education benefits programs. As such it will be necessary to notify students who desire to participate in GI Bill or other VA education benefits programs about any conditions or additional requirements, including training, experience, or examinations required to obtain the license, certification, or approval for which the educational program is designed to provide preparation. As a result, an addendum to the direct disclosure ('Direct Disclosure' – Veteran Affairs Addendum: Minimum Compliance) will be provided to any student who desire to participate in GI Bill or other VA education benefits programs.

*For students who desire to participate in GI Bill or other VA education benefits programs:*

### 'Direct Disclosure' – Veteran Affairs Addendum: Minimum Compliance

In addition to the educational requirements for <Name of License> licensure in <State or Territory>, the following additional requirements must be met:

1. **Training or continuing education required for initial/first license outside of program:**
2. **Post-graduation supervised experience or other work experience:**
3. **Examinations:**

Please be aware that criminal background checks, citizenship status, residency, age, and other factors may be a condition for licensure in <State or Territory>. Students are advised to review all available information on the <State or Territory> licensing board website <Insert link to board website>.

## Sample 'Attestation' Statement for Prospective and Current Students

Dear KWU <ADMISSIONS/REGISTRAR> Office,

I am a <PROSPECTIVE/CURRENT> student interested in enrolling in an education program at Kansas Wesleyan University. I have been informed by <ADVISOR NAME> that this program **does not meet** the state licensure requirements in the state in which I am currently located.

I acknowledge that if I enroll in the program and complete the curriculum, I will not be eligible to become licensed in my current state, which may impact my career opportunities. I also understand that if I do not plan to relocate to another state or territory in order to seek licensure and employment after completing the program, I am prohibited by federal regulation from being admitted into the program.

I hereby attest and confirm that I do not intend to remain in my current state upon completing the <NAME OF PROGRAM> program but rather, intend to relocate to <MEETS STATE/TERRITORY>, and plan to seek licensure and employment in <MEETS STATE/TERRITORY>. I confirm I have reviewed the general licensure disclosures provided by Kansas Wesleyan University. Using all reasonable efforts, Kansas Wesleyan University has determined that the program **does meet** the educational requirements for licensure in the state or territory that I plan to relocate to and therefore, I intend to enroll in the program.

I understand that the education element is only one component of requirements for licensure. Criminal history, background checks, fingerprinting, additional training, continuing education, supervised work experience, fees, and other requirements may need to be satisfied in order to qualify for licensure.

I also acknowledge that I should contact any state or territory in which I may be interested in becoming licensed after completing the program to ensure I fully understand my employment options in that state or territory. The most reliable information comes directly from the applicable licensure board or agency/entity. I submit this attestation voluntarily and knowingly.

APPENDIX A: *THE BOOKMARK* DOCUMENTS FOR U.S.  
STATES/TERRITORIES/DISTRICTS

Listed in alphabetical order beginning on the next page.

[BACK TO SEARCH](#)

**State/Territory**

\*KEY

**License Title**

Specific title of license issued by the state/territory.

Note, if a state/territory issues a required time-limited license for purposes of gaining supervised experience after graduating that has different educational requirements, information for this type of license and the next-level license is provided. Curriculum should be compared to all relevant titles/levels in order to determine if a program “meets” educational requirements.

**Specialized Accreditation  
Required?**

"No" means the Board does not require the program to hold a specialized accreditation for licensure.

"Yes" means the Board does require the program to hold a specialized accreditation for licensure.

"N/A" means the state or territory does not offer a license.

**Specialized Accreditation  
Accepted as Meeting Educational  
Requirements?**

"Yes" means there is language in statute or rule that a program that holds specialized accreditation meets some or all education requirements.

"No" means Board does not indicate that specialized accreditation meets all educational requirements.

"N/A" means state/territory does not offer a license.

**Curriculum Comparison Needed?**

“Yes” means a comparison of the program to specific state standards/coursework/supervised experience listed is needed to determine if the program meets educational requirements for licensure.

"No" means a program does not need to compare their program to specific state/territory educational requirements. In most instances, the Board/Agency is relying on specialized accreditation or approval, license applicants holding certification, or license applicants meeting examination requirements.

"N/A" means the state or territory does not offer a license.

Note, each licensing board will still evaluate each individual graduate's application at the time they apply.

**Specific Coursework**

Specific information from statute, rule, application, or website is copied that includes state/territory requirement of certain courses or other educational requirements to be completed as part of the program. Licensing board/agency will review the graduate's transcript to determine if educational requirements were completed.

"N/A" means the state or territory does not offer a license.

Note, if references to other sections of statutes/regulations are listed, The Bookmark includes all relevant information required for curriculum comparison here. In other words, programs do not need to complete further research into statutes/regulations to determine comparison requirements.

**Supervised Experience (In-Program)**

Information is provided about any required practicum, internship, or supervised clinical experiences required to be completed as part of the program.

“N/A” means the state/territory does not issue a license.

**Member of Compact or Reciprocity Agreement?**

"Yes" means the state/territory has adopted one or more relevant licensure compacts or interstate

reciprocity agreements. The state/territory is a member of the compact or reciprocity agreement.

“Pending” means the compact or interstate reciprocity agreement is not yet enacted (does not have enough states/territories as members yet), but the state/territory is a member.

“No” means the state/territory is not a member of a relevant licensure compact or interstate reciprocity agreement.

“None found” means no relevant national licensure compact or interstate reciprocity agreement exists for this profession or occupation.

**Board/Agency Name**

Licensing board or agency name

**Board/Agency Website**

**Statute/Regulation/Rule Citation**

Citation to the relevant section(s) of state statutes, regulations or rules.

**Must Out-of-State Program Graduate Hold License to Qualify?**

"Yes" means the state/territory requires a license applicant who graduated from a program based in another state/territory to hold that state/territory license to meet educational requirements for initial, first-time license.

“No” means the state/territory does not require a license applicant who graduated from a program based in another state/territory to hold that state/territory license to meet educational requirements for initial, first-time license.

“N/A” means the state/territory does not issue a license.

**Must License Applicant Hold Private Certification?**

"Yes" means the state/territory requires a license applicant to hold a certification issued by a private (non-governmental) organization to meet educational requirements for initial, first-time license.

“No” means the state/territory does not require a license applicant to hold a certification issued by a private (non-governmental) organization to meet educational requirements for initial, first-time license.

“N/A” means the state/territory does not issue a license.

**Additional Training (Not Required In-Program)**

Training, continuing education or other requirements for initial licensure are listed here. These DO NOT need to be completed as part of the program to meet educational requirements for licensure.

**Experience (After Graduating/Outside of Program)**

Experience required for initial licensure. This could be supervised work experience after graduating, experience accrued outside of the program, or specific prior work experience. This DOES NOT (and in most cases, cannot) need to be completed as part of the program to meet educational requirements for licensure.

**Exam(s) Required**

Any exams required for the type of license.

"None found" means that the state/territory does not specify an exam for that particular license.

"N/A" means the state/territory does not offer a license.

**Notes**

--Educational requirements are provided for the recent graduate of a program of a regionally accredited college or university in the U.S. who is, or will be, applying for their first license or certification (typically by exam).

--Some states have additional levels of license/certification or additional scope of practice available if specific coursework, training, or work experience is completed. The Bookmark only captures the first level of license/certification (unless otherwise indicated).

--Some license types have multiple pathways to qualify. The Bookmark includes information through the lens of a program offered at a regionally accredited college or university, and does not include all of the possible ways that an individual may qualify for the license.

--Terminology is inconsistent across states/territories for most license types. Certification, license, credential, endorsement and certificate are all used to describe the legally

required permission by a state/territory to practice a particular profession or occupation. The Bookmark uses license and certification to refer to all of these. The exact title is provided for each state/territory.
