SECTION I: PROGRAM INFORMATION

List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Postgraduate level (PG), or both. (§205(a)(C))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Teacher Preparation Program

THIS PAGE INCLUDES:

>> List of Programs

List of Programs

Note: This section is preloaded with the list of programs reported in the prior year's IPRC.

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.1202	Elementary Education	UG	
13.1323	Teacher Education - Chemistry	UG	
13.1305	Teacher Education - English/Language Arts	UG	
13.1307	Teacher Education - Health	UG	
13.1328	Teacher Education - History	UG	
13.1311	Teacher Education - Mathematics	UG	
13.1312	Teacher Education - Music	UG	
13.1314	Teacher Education - Physical Education and Coaching	UG	

Total number of teacher preparation programs:

8

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- Adjunct faculty supervising clinical experience
- Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience
- Supervised clinical experience

THIS PAGE INCLUDES:

- >> <u>Undergraduate Requirements</u>
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

- 1. Are there initial teacher certification programs at the undergraduate level?
 - Yes
 - No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Years required of teaching as the teacher of record in a classroom	
All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)	2
Optional tool for automatically calculating full-time equivalent faculty in the system	
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	0
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	7
Number of students in supervised clinical experience during this academic year	5

Please provide any additional information about or descriptions of the supervised clinical experiences:

Number of clock hours of supervised clinical experience required prior

to teaching as the teacher of record in a classroom

Throughout the duration of the candidate's clinical practice experience, the cooperating teacher and the university supervisor will each complete a formative evaluation a total of four times, as well as a summative evaluation two times, throughout the sixteen weeks that the prospective teacher is with them in the classroom. Content area faculty will observe and evaluate the candidate twice during the sixteen weeks of evaluation, once in the first eight weeks and once in the second eight weeks. All supervising faculty will submit their formative evaluations every four weeks and the summative evaluations will be submitted every eight weeks to provide a complete overview of the candidate's growth.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below.	Click on the link to view t	he definition(s) in
the glossary.

	al Enrolled	Subset of Program Completers
No Race/Ethnicity Reported 0		0

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

• Yes

No teachers prepared in academic year 2023-24

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

CIP Code	Academic Major	Number Prepared

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES:	THIS	PAGE	INCLU	JDES:
---------------------	------	------	-------	-------

>> Program Assurances

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach based on past hiring and recruitment trends.
Yes No
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. Yes No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities. Yes No
Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes No
Prospective general education teachers are prepared to provide instruction to students from low-income families. Yes No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Early field experiences have been intentionally assigned giving students experience in schools with varying demographics and socioeconomic statuses. These placements begin with the History and Foundations of Education and continue throughout the education program. Differentiated instruction is stressed in all methods courses along with the curriculum modification for a variety of learning disabilities. The content of courses such as Classroom Management, Instructional Technology, and all methods courses are evaluated and updated regularly to ensure alignment with current research-based strategies. All students are required to take the course "Educating the Exceptional Individual" exposing them to the needs of students with exceptionalities and the responsibilities of all teachers in meeting those needs. Candidates seeking special education endorsement complete the elementary or secondary requirements of Kansas Wesleyan University (KWU) and take the special education requirements of the Kansas Independent

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

Yes

No

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Pass rate
- Scaled score
- Teacher credential assessment

SECTION IV:	LOW-PERFORMING
-------------	----------------

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. $(\S205(a)(1)(D), \S205(a)(1)(E))$

Note: This section is preloaded from the prior year's IPRC.

TH	IS PAGE INCLU	DES:	
>>	Low-Performing]	

Low-Performing

1. Is	your teacher preparation program currently approved or accredited?
•	Yes No
	yes, please specify the organization(s) that approved or accredited your program:
~	State
	CAEP
	AAQEP
	Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Yes

No

CECTION	V/ LICE	OF TECHNOLOGY	
SECTION	v. use	OF TECHNOLOGY	

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

IS PAGE INCLUDES:	
Use of Technology	

Use of Technology

1.	Provide the following information about the use of technology in your teacher preparation program.	Please note that choosing	'yes'	indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))			

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes
- b. use technology effectively to collect data to improve teaching and learning
 - Yes
 - No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
 - No
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
 - No
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All pre-service teachers must satisfactorily complete a course titled Instructional Technology. In this course they learn the various applications of technology within the lessons taught in the classroom. Pre-service teachers are required to develop a strategy wall for the use of technology in the classroom. They then use this wall to develop two lesson plans that they present to the class. These lesson plans include; one that is specific to the use of technology to meet the diverse learning abilities of the classroom and one that focuses on the use of technology in an integrated unit. Throughout each early field experience, students are required to integrate technology into each mini lesson. When in clinical practice, candidates are evaluated on their use of technology during instruction by their cooperating teacher and university supervisor (a total of eight times).

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

HIS	PAG	F IN	CL U	DES:

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All students are required to take the Education of the Exceptional Individual. The education students are taught how to recognize various exceptionalities they may encounter in the general education classroom. This course includes a study of exceptionalities ranging from severe multiple disabilities to gifted. Emphasis is placed on the development of skills necessary to work with exceptional children in the regular classroom. All students spend 10 hours in a PK-12 SPED classroom during this course. They are asked to use various strategies and technologies that could be used to provide support to students with disabilities. They must determine which strategies and technology would be used in enhancing the education of students with disabilities. They are prepared, through the use of differentiated instruction and other strategies, to meet the learning needs of all students

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Clinical practice candidates work with their cooperating teachers to develop lessons that specifically address the needs of the diverse populations in the classrooms. This includes any students who have an IEP. Education students learn to recognize the parts of an IEP and the terminology that is often used. They become aware that the general education teacher must carry out an IEP and document the student's progress. They also learn that as the general education classroom teacher they have the initial role in recognizing a student who falls below the norm and must initiate a student intervention plan.

c. Effectively teach students who are limited English proficient.

Education students are provided with strategies that help equip them to work with English Language Learners. This is currently being taught in both Methods of Teaching Reading and Language Arts for the Beginning Reader and the Developing Reader. Field experience is required in which students work with varying abilities and who are limited English proficient. During their clinical practice, the student teachers work in a school district that hs a population of English Language Learners. Through this experience, they observe classroom interaction among teachers, students new to the United States, and students whose first language is English.

- 2. Does your program prepare special education teachers?
 - Yes
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

All education students are taught strategies to provide differentiation in the general education classroom. Those students that want an endorsement in Special Education must also obtain or hold an elementary or secondary license. The requirements for the SPED endorsement are taught through the Kansas Independent Colleges Association (KICA). The KICA provides undergraduate endorsement coursework that includes field experiences for

three of the four courses and has developed an assessment system that is aligned with its conceptual framework. KICA has a fully accredited program which includes the following: assessment of the student's ability to plan instruction, assessment of clinical experience, assessment of candidate's effect on student learning, philosophical, historical, legal foundations, managing behavior, problem-solving, and social skills.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

KICA prepares candidates to teach in special education classrooms. Coursework assignments include observations of the development of an IEP, observations of an IEP team meeting, IEP videos/simulations, planning of an IEP based on a case study, and preparation of an IEP during the clinical practice SPED placement.

c. Effectively teach students who are limited English proficient.

KICA also prepares candidates to work with diverse populations, including English Language Learners. Coursework includes diversity interviews, diversity issues in assessment, diversity reference materials, and reading programs for English Language Learners.

Contextual Information

On this page, review the contextual information about your program, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THIS PAGE INCLUDES:

>> Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Kansas Wesleyan University (KWU) is located in Salina, a central Kansas community with a population of about 47,000. KWU is a small university, grounded in the liberal arts tradition. The University is accredited by the North Central Association of Colleges and Schools-Higher Learning Commission (NCA-HLC). In spring 2017, the University completed a successful Higher Learning Commission regional accreditation visit, with recommendations for continued accreditation for a 10-year period with no required interim follow-up visits or reports. The Teacher Education Program is accredited by the Kansas Board of Education (since 1947) and the National Council for Accreditation of Teacher Education (since 2002). It is the philosophy of the Teacher Education Program that a liberal arts education coupled with an academic major and professional teacher training produces an effective P-12 teacher. The Conceptual Framework of the program states: "Kansas Wesleyan University prepares reflective teachers with the potential for professional leadership who demonstrate academic and professional excellence, have sound personal qualities, have a commitment to education and life-long learning, demonstrate world citizenship and are committed to faith." KWU currently offers 7 academic programs that lead to teacher licensure with additional endorsements available in SPED. Two important groups provide oversight for the Teacher Education Program--the Teacher Education Unit Committee and the Teacher Education Advisory Council. Each group has a different representation and provides a specific function in the program. The Teacher Education Department Unit Committee is comprised of faculty from the academic programs that lead to licensure. The Teacher Education Department/Unit committee oversees curriculum, assessments, and procedures in teacher education. The committee makes decisions regarding the acceptance of students into the program and clinical practice. The committee also decides on probation within or dismissal from the program and hears appeals made to the Teacher Education Program. The Teacher Education Advisory Council is comprised of teachers and administrators in the field, graduates of the program, faculty, community members, and two candidates who are fully accepted into the teacher education program. This Council makes recommendations regarding program evaluations, follow-up surveys, early field experiences, and provides a link to the educational community in Salina and surrounding areas. A testimony to the success of KWU's teacher education program is the number of teachers employed by USD 305, Salina. These graduates are contributing to the quality of the Salina schools.
