

Hi,

On behalf of Kansas Wesleyan University, we would like to welcome you to the Coyote Pack. In preparation for your arrival to campus, you will need to complete and submit the required student life forms (i.e., medical history, health insurance information, and immunization record). You will complete the required forms online via Vivature, which is an online database to collect and secure your personal medical information throughout your time as a student.

Vivature allows key personnel at KWU such as Student Development & Athletic Training Office, to access and view your medical information when needed for emergency purposes. To begin the process of completing your required forms, please go to the following link on the KWU website:

- <http://www.kwu.edu/current-students/student-development/residence-life>

Once on the page, click on "[Vivature Registration Instructions](#)". This will lead you with information on how to create your online profile and complete all necessary documents. Completion of this process will satisfy all the required medical documents for the Student Development Office and Sports Medicine Office (if applicable).

We look forward to meeting you. If you have any questions, please feel free to contact us.

Sincerely,

Christian Mitchell
